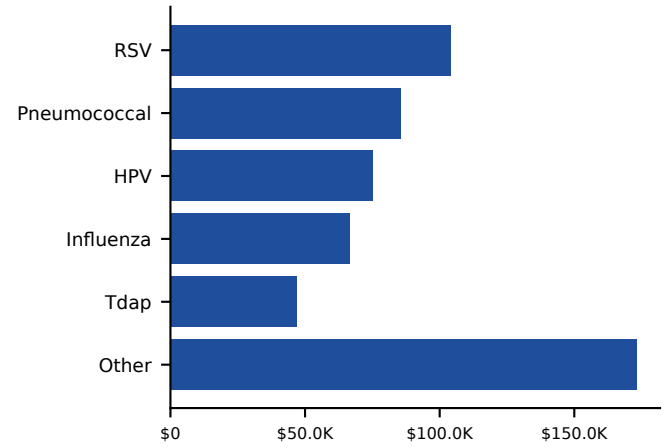
Little Blue for Vaccine Sales | Account Brief

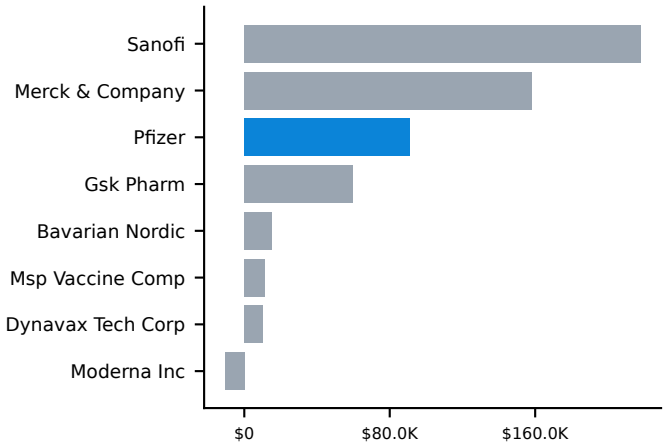
Clearwater Urgent Care 036 (SYNCP000036), IL SYNTHETIC

Dollars (net)	Doses	Rank of peers	Pfizer share	Switching	MenB:MenACWY
$551.8K	**4,260**	**96 / 180**	**16.5%**	**none**	**undefined**

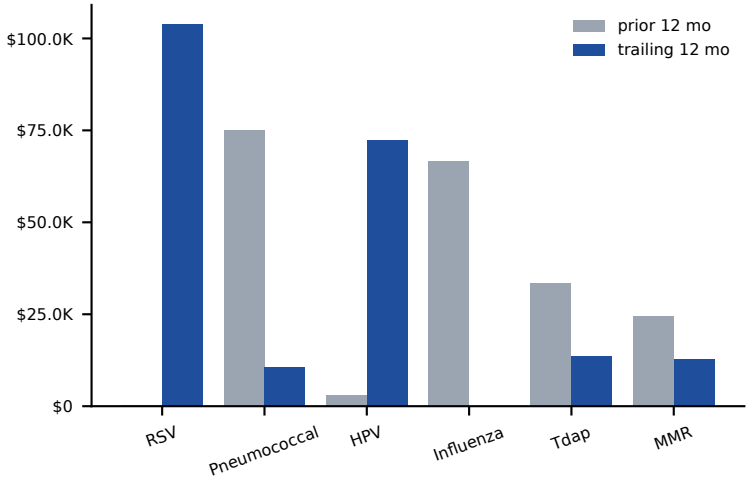
F2 Dollars by class (top 5 + Other)



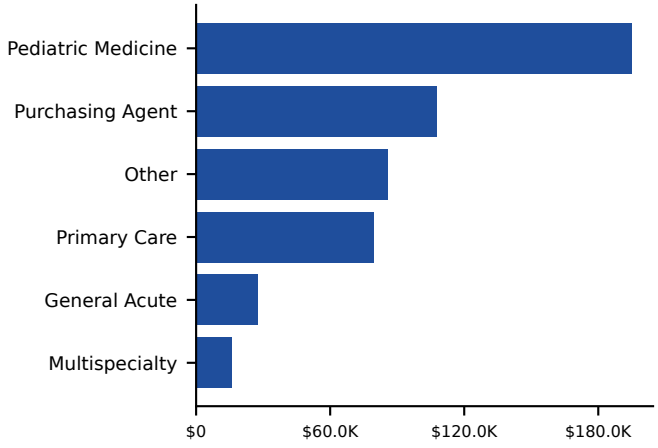
F4 Dollars by mfr (Pfizer highlighted)



F7 Trailing 12 vs prior 12 months by class



F3 Dollars by facility type



Talking points (templated from fact tokens; LLM off)

- Size: purchases of $551.8K across 4,260 doses rank this system 96 of 180 synthetic peers and equal 0.5% of benchmark dollars.
- Mix: RSV leads at 18.9% of dollars; the main facility type is Pediatric Medicine at 35.3%.
- Manufacturers: Pfizer holds 16.5% of dollars ($91.0K); the largest manufacturer is SANOFI.
- Switching: no material switching between the two windows.
- White space: the MenB to MenACWY ratio is undefined because this system has no MenACWY doses; MenB doses total 30.
- Trend: trailing twelve-month dollars moved -3.6% against the prior twelve months; RSV grew most and Influenza fell most.
- Question to ask: what is driving purchasing in RSV, and which programs are planned for next season?
- Returns netted out of totals: $32.8K across 4 return rows.
